909F2

PERFORMANCE YOU CAN BELIEVE IN.

909F₂

HIGH LAUNCH WITH MID SPIN.

MODERN CHASSIS - A modern shape with a tour proven profile creates a deeper CG for added stability.

INCREASED LOFT - Half degree higher lofts versus 909F3 for higher launch and trajectory.

LARGER FACE - Larger, longer face provides confidence and forgiveness.

MULTI-RELIEF SOLE - Sole contours minimize turf resistance and ensure the ground contact point remains forward reducing bounce and skip.

SUREFIT SWINGWEIGHT SCREW - Factory installed balance weight helps position the CG deep and provides precise head to shaft matching.

PRECISE CONSTRUCTION - Precision cast stainless steel body with a Carpenter steel face insert for lively feel and increased ball speed.

ALDILA VOODOO FAIRWAY

A specially designed, one piece, carbon-fiber rib system keeps the shaft more concentric during the swing preventing ovaling for maximum energy transfer and added stability. Produces low-to-mid launch and low spin.

DIAMANA BLUE 75 FAIRWAY

A progressive fairway wood shaft using multi-materials to promote a tour preferred, neutral ball flight for maximum control and workability.

LARGER, LONGER FACE

HEADCOVER

MULTI-RELIEF SOLE DESIGN

ROUND PROFILE

909F2

A round profile, high performance fairway with a larger, extended face that produces higher launch with mid spin.
